6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

Because this submission was very code heavy, there is a lot of potential for AI tools to be abused. Although, given many of us are working with these technologies for the first time, the AI can be a great start off point and a great aid in learning how to implement the correct way.

7. How did using AI content generators impact **your learning** for this submission? *

Using AI content generators for this submission...	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) *

I was quite surprised in how AI benefited my learning. I was not reliant on the AI but I used it when I was facing a roadblock or was totally lost. In this way, I did not get too frustrated when I hit these roadblocks because I knew I can get an understanding of the errors via the AI tool. This encouraged me to keep learning and trying out new things with the technologies.

9. For this submission, how would you rate the relative contribution made by your versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Fair

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) *

Used ChatGPT. My prompts mostly revolved around testing and asking the AI how to develop and implement tests with this specific goal given these components.

11. How confident were you in AI's responses that you received? *

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident
- ☐ I did not use AI for this submission

12. How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) *

I mostly just tried implementing what the AI tool showed and saw if it worked or not. Essentially trial and error.

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer. *

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

Yes. There were a few times where the AI aid did not help with an issue I was facing. In these cases I would continue looking to other resources online. Eventually I was able to figure out my issues without having to go back to the AI tool.

14. For each of the following items, how would you rate the relative contribution made by you versus AI? *

15. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

I used AI to aid with the development of test cases. I was quite unfamiliar with using our testing framework and how to setup test cases in general. So I would navigate online resources and consult AI when

16. Please leave any further comments above use of AI tools for this submission /
CMPT 276

I did not use AI for any other submissions than this, so seeing how I worked with and without AI tools was quite surprising. My opinion on AI tools has shifted. I believe it can be a great learning aid but I still think there is a lot of potential for it to be abused.
